

Appendix G Logistics References

G-1. Scope

This appendix lists current Army Field Manuals (FMs), Army Regulations (ARs), and Update Publications. The documents are to be used to execute day to day operations of all ISM organizations. ISM is an evolving logistics business process. ISM, when executed properly, identifies logistical process improvements to current Army logistic procedures outlined in the listed documents.

G-2. Process Improvement Recommendations

Process improvement recommendations identified within the ISM management structure that require a change to current Army documents concerning logistics practices, procedures, policies, recommendations for ISM business practices shall be processed through the ISM management structure. The NSMM is the executive agent for recommending ISM policy, regulation, and procedural changes to the appropriate Department of the Army proponent.
